- Orleans County Resolution 161-415 - URGING STATE REPRESENTATIVES TO AMEND THE NEW YORK STATE ELECTRONIC EQUIPMENT RECYCLING AND REUSE ACT

WHEREAS, the main reasons for the adoption of the New York State Electronic Equipment Recycling and Reuse Act (Act) was to assist local governments with managing the fast growing end-of-life electronics waste stream by relying on electronics manufacturers to fund a recycling infrastructure and relieve municipalities from the recycling and end-of-life management costs; and

WHEREAS, the Act has succeeded in significantly increasing electronics recovery and recycling in the state, but unfortunately the collection infrastructure is rapidly shrinking as governments and other collectors are faced with mounting fees in the absence of consistent manufacturer funding and limited markets for cathode ray tubes (CRTs); and

WHEREAS, the consequence, specifically following the January 2015 Disposal Ban, is significant as a growing number of municipalities such as Orleans County are faced with bearing more of the financial responsibility for continued e-scrap collection in their communities; and

WHEREAS, the Act requires, and the state relies on, electronics manufacturers to fund e-scrap recycling programs that are effective, continuous and reasonably convenient to all consumers across the state; and

WHEREAS, once manufacturers meet their performance standard (goal), which in a number of cases is midway through the year, they no longer provide financial support to continue their programs, thus shifting management costs to unsuspecting and cash strapped local governments; and

WHEREAS, the issue is exasperated by the fact that electronics currently sold today are much lighter than the obsolete CRT devices that make up about 70% of the weight of e-scrap generated, which are cost intensive to responsibly manage. As a result, many

local governments across the state have grappled with the burden to fund or cease e-scrap collection, which has been particularly difficult in rural communities that do not benefit from retail collectors or economies of scale; now be it

RESOLVED, that the Orleans County Legislature does hereby call upon Governor Cuomo, the New York State Assembly, the New York State Senate, and the State Department of Environmental Conservation to improve the current law intended to build toward the long-term goals of creating a more stable and comprehensive, manufacturer implemented electronics recycling infrastructure by implementing actions to strengthen communication among stakeholders, clarify key statutory provisions in their present rulemaking efforts, and promote the adoption of the Proposed Statutory Changes to the Act to provide for year round, no-cost collection of electronics, consistent with convenience standards for both rural and urban populations—that help alleviate the immediate financial pressures faced by local governments; and be it

FURTHER RESOLVED, that copies of this resolution shall be forwarded to Governor Cuomo, Environmental Conservation Committee Chairman Thomas O'Mara, State Senator Robert G. Ort, Assemblyman Hawley, Assemblywoman Corwin, NYSAC, InterCounty Association, and all others deemed necessary and proper.
